Ricardo Plata

Digital Designer | UX/UI & Product Design - Toluca, México
(+52) 722-628-3061 - g2ricardogplata@gmail.com - Portfolio

ABOUT ME

Digital Designer with a strong foundation in UX/UI and Product Design, experienced in creating user-centered digital products, responsive web interfaces, and interactive experiences. Combines visual design, prototyping, and design thinking to develop functional, engaging, and intuitive digital solutions.

EXPERIENCE

Implemental Systems - Product Designer

July 2025 – January 2026

- Designed responsive dashboards and workflow-based web interfaces to streamline internal processes and optimize user navigation.
- Defined information architecture, user flows, and interactive Figma prototypes to align and refine product solutions with core stakeholders.
- Coordinated technical handoff with React and Tailwind CSS developers by providing precise UI specifications, ensuring flawless responsive implementation.

Freelance Digital Designer

March 2026 – Present

- Executed qualitative user research and usability surveys via Tally, structuring and analyzing datasets in Excel to justify data-informed design decisions.
- Designed, developed, and deployed fully production-ready responsive websites and optimized digital experiences directly for independent clients.

CodSoft - UX/UI Design Intern

April 2025 – May 2025

- Structured interactive prototypes in Figma for two mobile applications and responsive web platforms.
- Conceptualized functional interface designs and complete navigation flows for a healthcare application and the Digital Vault web product.

EDUCATION

March 2021 - July 2025

Bachelor’s Degree in Video Game Design and Art
University of Advanced Technologies (UNIAT)
