ABOUT ME

Product Designer with experience in interface design for web and mobile products. Participation in real product projects, contributing to research, wireframes, visual design, and development handoff. Focused on creating intuitive, functional experiences aligned with both business and user goals.

EXPERIENCE

Product Designer - Implemental Systems

Spazialab.com Website

July 2025 - January 2026

- Design of low- and high-fidelity wireframes for a website, aligned with the brand’s visual identity.
- Contribution to visual design decisions and interface structure definition.
- Implementation of designs through code, participating in front-end development using React alongside the technical team.
- Support during the handoff process and visual adjustments throughout implementation.

UX/UI Design Intern – CodSoft

Medical Health Application, E-commerce Website, Restaurant App and Website

April 2025 - May 2025

- Design and prototyping of interfaces for health, e-commerce, and restaurant projects, from research to final UI.
- Application of UX principles such as visual hierarchy, usability heuristics, and feedback-based iteration.
- Creation of wireframes, user flows, and high-fidelity prototypes adapted to each platform.
- Development of clean interfaces aligned with user and product objectives.
