Ricardo Plata

Digital Designer | UX/UI & Product Designer - Toluca, México
(+52) 722-628-3061 - g2ricardogplata@gmail.com - Portfolio

ABOUT ME

Digital Designer specialized in UX/UI and Product Design, with experience designing digital products, enterprise software, and responsive web interfaces. Combines research, information architecture, prototyping, and visual design to create clear and functional experiences, collaborating with clients and development teams from conceptualization through implementation.

EXPERIENCE

Implemental Systems - Product Designer

July 2025 – January 2026

- Designed digital products and enterprise software from conceptualization, defining features, information architecture, and user flows.
- Created responsive interfaces, components, design systems, and Figma prototypes in collaboration with clients and stakeholders.
- Collaborated with developers on implementation, specifications, and documentation, including UI components for the geospatial software Alquemy Now.

Freelance Digital Designer

March 2026 – Present

- Designed questionnaires using Tally and Google Forms and conducted competitive analysis to identify user needs and design opportunities.
- Collected and analyzed client- and user-provided feedback to iterate on UX/UI solutions.
- Designed, developed, and launched responsive websites integrating UX/UI, visual identity, SEO, and AI-assisted development.

CodSoft - UX/UI Design Intern

April 2025 – May 2025

- Designed interactive Figma prototypes for mobile applications and responsive web platforms.
- Defined interfaces and user flows for a medical application and the Digital Vault web product.

EDUCATION
